# PASSO DI LAVAZÈ

## Where to park

A parking area has been set up for the event's participants near the square in front of the Albergo Dolomiti.

The surface of the area is made of rammed earth and spaces are limited.

For those with, or requiring a disability parking pass, 4 parking spaces (marked with yellow lines) will be reserved at the beginning of the path.

In any case, REMOOVE staff will be on hand to facilitate entry/exit of the vehicle for those who so request.

# PASSO DI LAVAZÈ

## Access to the concert area

The access route to the concert area from the car park consists of a first stretch along a forest road with a firm and slightly uneven surface (600 meters).

# PASSO DI LAVAZÈ

Afterwards, a short stretch (150 meters) of alpine meadow makes it possible to reach the concert area by a clear path.

However, the naturally uneven conformation of the land requires caution and a steady foot.

REMOOVE staff will be available for those who so request, to provide assistance and facilitate access, also for people with push or manual mobility aids.

Interested spectators are therefore invited to contact our call center on 0464/076840 or write to [isuoniaccessibili@re-moove.it](mailto:isuoniaccessibili@re-moove.it) (WhatsApp 351 7181793)

# PASSO DI LAVAZÈ

## Assistance, services

REMOOVE staff will be on hand for the entire duration of the concert to provide assistance and support to anyone requesting it.

A special Infopoint will be set up at the parking lot (REMOOVE signs on site) as well as a sun-shielded waiting area near the concert venue.

A service for ensuring accessibility is provided with special REMOOVE bikes, which can be booked using the contacts provided in the previous chapter.

Finally, electric Zoom vehicles suitable for off-road transport will be made available free-of-charge for people with impaired mobility requesting them. This service will be provided for the parking lot-concert area journey, where spectators will then have to stay with their own mobility aid.

## Assistance, services

There are restrooms in the area adjacent to the parking lots at the Hotel Bucaneve and Albergo Dolomiti.

The Hotel Bucaneve has restroom facilities (partially) equipped for people with disabilities who use wheelchairs. REMOOVE staff will be at your disposal to provide support.

## Listening

Thanks to the co-operation of the **Oriente Occidente Impresa Sociale-Ets**, the deaf or hard-of-hearing will also be able to enjoy the acoustic experience. REMOOVE will provide those who request them with **Subpac** devices, which are innovative audio-tactile instruments created for virtual reality experiences that are worn like backpacks and vibrate to the rhythm of the music, allowing sound perception through touch.

At the performances, thanks to the support of the **ENS-Ente nazionale Sordi**, (National Organization for the Deaf)'s experts, staff using sign-language will welcome the deaf spectators and explain how the Subpac works.

The availability of such devices is limited so those interested are invited to contact our call center on 0464/076840 or write to [isuoniaccessibili@re-moove.it](mailto:isuoniaccessibili@re-moove.it) (WhatsApp 351 7181793)
